POPULATION 9,390; White 5,338, Colored 4,052.

BRUNSWICK COUNTY was formed in 1764, from the counties of Bladen and New Hanover. It derives its name from the Prince of Brunswick, who, the same year, married the King's oldest sister. The county is situated on the west side of Cape Fear river, and is the extreme southern point of the State.

SOUTHPORT is the county-seat, and is situated at the mouth of the Cape Fear, 173 miles south of Raleigh. Population 1,400; white 900, colored 500.

Surface—Brunswick is generally level and sandy, much of the land is in swamps, and requires draining before cultivation.

Staples—Cotton, corn, ground peas, sweet potatoes, rice, turpentine and lumber. The soil next to the sound produces abundant crops of pea-nuts. Some farmers are growing grapes successfully.

Fruits—Apples, peaches, grapes, pears, melons, &c.

Timbers—Long-leaf pine, juniper, live oak, cypress, ash, &c.

BUNCOMBE COUNTY.

AREA 620 Square Miles.

POPULATION 25,910; White 21,424, Colored 4,486.

BUNCOMBE COUNTY was formed in 1791, from Burke and Rutherford counties, and derives its name from Col. Edward Buncombe, of Tyrrell county, who was Colonel of the Fifth North Carolina Regiment in the Continental Army.

It lies immediately west of the Blue Ridge, and is the centre of the Transmontane section.

ASHEVILLE, the county-seat, is on the French Broad river. It was named in honor of Gov. Samuel Ashe, of New Hanover, and was originally called Morristown. Its elevation is 2,250 feet above sea-level.

The population is about 10,250, and it is one of the most noted summer resorts in the South.

Asheville is the metropolis of "The Land of the Sky."

Surface—Buncombe county is situated on the west side of the Blue Ridge, and occupies a beautiful rolling country down the Swannanoa and French Broad rivers, which streams water it finely, and along the valleys of which are found thousands of acres of very rich lands. Nearly all the land in this county is susceptible of cultivation, as the fine growth of timber even on the sides of the mountains indicates. The scenery is enchanting—the air invigorating.

Staples—Corn, wheat, rye, oats and live stock. Tobacco is now being grown successfully, and of fine quality.

Fruits—Peaches, apples, pears, grapes, chestnuts, and nearly every kind of fruit grown to great perfection.

Timber—Walnut, white pine, oak, poplar, hickory, ash, maple, cherry, chestnut and many other kinds of wood noted in the fine arts.

Minerals—Mica and other valuable minerals are found in this county. Mineral and iron springs abound. The water-power is unsurpassed.

CARTERET COUNTY.

AREA 520 Square Miles.

POPULATION 9,785; White 7,107, Colored 2,678.

CARTERET COUNTY was one of the original precincts of the Lords Proprietors, and was called in honor of one of the Lords, Sir George Carteret. It borders on the Atlantic Ocean for a distance of 75 miles, and is so near to the Gulf Stream as to make the climate quite equable all the year round.

BEAUFORT, the county-seat, is on Beaufort harbor, and is a town of growing importance. It is a delightful summer resort, 144 miles east of Raleigh, and has a population of 2,500.

MOREHEAD CITY, the terminus of the Atlantic & North Carolina Railroad, is a beautiful new city. It has a population of 849, and is a charming sea-side home.

Surface—The land is low and level, much of it in swamps and marshes. It extends up and down the sound for seventy miles. A portion of the county in narrow strips, called The Banks, lies between the sound and the ocean. Much of the swamp is very rich and very productive when well drained.

Staples—There are some very fine cotton lands in this county. The moisture of the climate has a tendency to produce a fine, soft fabric. Corn grows well, and in the western portion, along the sound, ground-peas are produced to perfection. Sweet potatoes are raised in large quantities, of superior quality The fisheries are extensive and often very valuable.

The last battle fought in the State with the Indians was fought in 1712, within one mile of the present town of Beaufort. Col. James Moore, of South Carolina, was in charge of the Colonial forces. The battle was with the Core Indians, who inhabited this county.

Fruits—Figs, apples, peaches, pears, grapes and melons to great perfection.

Timbers—Live oak, long-leaf pine, cedar, cypress, ash, gum and juniper.

CASWELL COUNTY.

AREA 400 Square Miles.

POPULATION 17,825; White 7,168, Colored 10,687.

CASWELL COUNTY was erected in 1777, out of Orange county, and takes its name from Richard Caswell, the first Governor of the State under the Constitution.

YANCEYVILLE, its capital (named in compliment of Hon. Bartlett Yancey), is 69 miles northwest from Raleigh, and contains a population of 965.

Surface—Caswell county lies on the south bank of Dan river, and on small tributary streams. The surface is moderately uneven, and the soil generally good, especially for tobacco. There are probably no finer tobacco lands in America.

Staples—Tobacco is the great staple in this county. The leaf grown here is celebrated far and near. Wheat, corn and oats grow finely, but are not considered so profitable as tobacco.

Fruits—Apples, peaches, pears, and all the small fruits, melons.

Timber—Oak, hickory, walnut, poplar, pine and various other kinds common to the middle part of the State.

CATAWBA COUNTY.

AREA 440 Square Miles.

POPULATION 14,946; White 12,472, Colored 2,474.

CATAWBA COUNTY was cut off from Lincoln county in 1842, and takes its name from the beautiful river which forms its northern boundary.

NEWTON, the county-seat, is directly on the Western North Carolina Railroad, and is 178 miles west of Raleigh. Population 1,656.

Surface—This county is situated in the bend of the Catawba river, which makes a curve around the north and east sides. The land is moderately uneven, and most of it quite productive; it is well watered, and plenty of water-power for immense machinery. Catawba is a prosperous county, out of debt, taxes low, and money in the treasury—a desirable place to settle. The celebrated Sparkling Catawba Springs are in this county.

Staples—Corn, cotton and wheat are the great staples, and large quantities are shipped to other counties. Irish potatoes and grass are grown with success. Live stock is profitable. This is among the best wheat growing counties in the State.

Fruits—Peaches, apples, pears, grapes, plums and berries.

Timbers—Black walnut, poplar, ash, gum, hickory, chestnut, wild cherry, elm and all the oaks.

Minerals—Iron, gold and alum are found in this county.

CHATHAM COUNTY.

AREA 800 Square Miles.

POPULATION 23,456; White 15,501, Colored 7 955.

CHATHAM COUNTY was organized in the year 1770, and named after the celebrated English statesman, William Pitt. Earl of Chatham.

PITTSBORO, the county-seat, is 33 miles west of south from Raleigh. Population, 580.

Surface—This county is undulating, some parts almost approaching mountainous. The uplands are susceptible of a high state of cultivation. The valleys along the streams are rich.

Staples—Corn, cotton, wheat, oats, rye, tobacco, potatoes, peas, grasses and nearly every kind of vegetable, and large quantities of butter, chickens and eggs.

Fruits—Apples, peaches, pears, plums, apricots, melons and berries.

Timbers—Oak, hickory pine, gum and ash.

Water-power—There is an abundant water-power. Haw river enters the county at its northwestern boundary, and passes diagonally across, affording at almost every mile the finest water-power in the State. Deep river running through the western and southern portions of the county and Rocky river through the centre, afford a series of water-powers unsurpassed. In fact, it is believed that the water-power of Chatham county is superior to that of the whole State of Connecticut.

CLEVELAND COUNTY.

AREA 420 Square Miles.

POPULATION 16,571; White 13,699, Colored 2,872.

CLEVELAND COUNTY was formed in 1841, from Rutherford and Lincoln counties, and derives it name from Col. Benjamin Cleveland, of Wilkes county, who acted an important part in the battle of King's Mountain on the 7th of October, 1780.

SHELBY, the county-seat, is situated 215 miles west of Raleigh, on the Carolina Central Railway and the C., C. & C. R.R., and has a population estimated at 1,825.

Surface—Hilly and in places mountainous; well watered by the First Broad and its tributaries; along these are many rich lowlands. The climate is very pleasant and salubrious—a great summer resort for health.

Staples—Cotton, wheat, corn, oats, grass and live stock. Tobacco grows finely.

Fruits—Apples, peaches, pears, plums, grapes, berries, melons, &c.

Timbers—All the hard woods indigenous to the Piedmont region, with pine and cedar in considerable quantities.

Minerals—Gold and mica are found in this county.

CRAVEN COUNTY.

AREA 900 Square Miles.

POPULATION 19,729; White 6,662, Colored 13,067.

CRAVEN COUNTY was one of the original precincts of the Lords Proprietors, and derives its name from William, Earl of Craven, to whom, with others, the charter was granted by Charles II.

NEWBERN, the county-seat, is named after Bern, in Switzerland, and is one of the oldest towns in the State; located at the junction of Neuse and Trent rivers, 110 miles east of Raleigh. Population, 8,000.

Surface.—This county is level. It is traversed by the Neuse river running from northwest to southeast. On both sides of the river there is much bottom land that produces heavy crops when well drained. The advantages of water transportation are fine.

Staples.—Cotton and corn are the great staples. Shingles and lumber are manufactured profitably. Naval stores and fish are items of very considerable profit. Newbern is one of the finest fish-markets in the State. Truck-farming, of late years, has become extensive and profitable.

Fruits.—Apples, peaches, pears, apricots, nectarines, figs, melons, and nearly every species of small fruit.

Timbers.—Pine, cypress, poplar, gum, live oak, water oak, etc.

CUMBERLAND COUNTY.

AREA 900 Square Miles.

POPULATION 23,836; White 12,592, Colored 11,244.

CUMBERLAND COUNTY was formed in the year 1754 from the upper part of Bladen. It derives its name from the Duke of Cumberland, a popular and brave officer, at that time, in England.

FAYETTEVILLE, the county-seat, was settled in 1762, and was at first called Campbelltown, afterwards Cross Creek, and in 1784 its name was changed to Fayetteville, in honor of General Lafayette. Fayetteville is located on the Cape Fear river; it is sixty miles west of south from Raleigh, and contains a population of 7,000.

Surface.—Cumberland is situated on the Cape Fear river and tributaries; land generally level, and much of it quite productive when well drained—especially so along the streams.

Staples.—Cotton and corn are the leading staples. Naval stores are still produced, but not as extensively as formerly, though still a source of considerable income to the county.

Fruits.—Pears, apples, peaches, apricots, grapes (the Tokay vineyards are in this county), all the small fruits and melons equal to any, perhaps, grown in the State.

Timbers.—Pine in abundance, oak, gum, hickory, cypress, &c.

CURRITUCK COUNTY.

AREA 200 Square Miles.

POPULATION 6,476; White 4,496, Colored 1,980.

CURRITUCK COUNTY was one of the early precincts of the State, in 1729, when the Lords Proprietors surrendered their rights to the English Crown. It derives its name from a tribe of Indians who once inhabited and owned the county. It is situated in the extreme northeastern portion of the State, and is bounded on the north by the Virginia line, east by the Atlantic Ocean, south by the Albemarle Sound, and west by Camden county. The county, especially on Currituck Sound, is well adapted for truck-raising. Melons can be successfully grown from four miles above Court-House to Powell's Point—a distance of thirty-four miles. The fishing and ducking interest, from November until March, is a source of considerable revenue to the thirty-four miles territory above named, including the islands and beach. Her people have labored and paid taxes, paid taxes and labored again, to rid themselves of what has been known so long as the "canal debt," and this year's levy will put her out of debt. The taxes for all purposes are $1 on the hundred, which is quite a fall from $2.75 in 1880. Next year the county will only have to levy to defray her current expenses, which will be about fifty or sixty cents on the dollar. With the Albemarle and Chesapeake Canal and the N. S. Railroad, her shipping facilities are good; on the road her trucks, etc., can leave this evening and be in New York to-morrow morning. The people are a church-going people, and are in favor of free schools, but at this time her schools are languishing on account of "the debt;" however, from now she will not lag in the advancement of education. Moyock is quite a thriving little village on the N. S. Railroad. A company of men from New York are negotiating to buy thirty thousand acres of land in that vicinity; when that is consummated others will follow, and Currituck county will not be excelled in the State for her variety and productiveness of soil.

CURRITUCK COURT-HOUSE, the county-seat, is beautifully located on Currituck Sound, and is 242 miles northeast from Raleigh. Population, including township, 2,000.

DARE COUNTY.

AREA 270 Square Miles.

POPULATION 3,245; White 2,878, Colored 367.

DARE COUNTY was organized in 1870, from Tyrrell, Hyde and Currituck, and was named in honor of Virginia Dare, the first white child born on the American Continent after its discovery by Columbus.

MANTEO, the county-seat, is 250 miles northeast from Raleigh, and derives its name from the chief of an Indian tribe that formerly occupied that portion of the State. Population of the town 175.

Surface.—Dare county embraces a small area of high land, and large bodies of swamp and marsh. The surface is cut up by extensive collections of water; hence the principal occupation of the people is that of fishing.

Nag's Head, on the east shore, is a noted summer resort. Education and enterprise would make this one of the finest counties in the State. It is noted for its sea-breezes and healthfulness. The first English settlement was made here in 1584. Virginia Dare, the first white child born on this Continent, first saw the light of day in this county, hence the name; and the first religious services of this country were performed on the banks of the Roanoke Sound.

Staples.—Fish form the great staple of this county. The product of this item is estimated at over two hundred thousand dollars per annum. Rogers & Etheridge alone did a business of some seventy-five thousand dollars in one year. Corn, sweet potatoes and scuppernong grapes grow finely. This is the native home of the scuppernong.

Timbers.—Cypress, juniper, gum, water oak, live oak and others.

Fruits.—Figs, apples, peaches, cranberries and other small fruits.

POPULATION 20,333; White 16,340, Colored 3,993.

DAVIDSON COUNTY was formed in 1822, from Rowan county, and named in compliment of Gen. William Davidson, who fell at the passage of the Catawba river at Cowan's Ford, during the Revolutionary War. It is situated in the Piedmont section of the State, and is intersected by the North Carolina Railroad. Its water-power is scarcely surpassed by any county in the State, the Yadkin river forming its southern and western boundary.

LEXINGTON, the county-seat, is situated on the North Carolina Railroad, 117 miles west of Raleigh. Population, 1,257.

Surface—Undulating, well watered by the Yadkin river and its tributaries; much of the soil along the streams good, the hills susceptible of a high state of cultivation.

Staples—Tobacco, corn, wheat, grass and fruits in great variety.

Fruits—Peaches, apples, pears, melons, grapes, berries, and all the small fruits.

Timbers—Hickory, oak, black walnut, pine, wild cherry, poplar, maple, and others.

DAVIE COUNTY.

AREA 300 Square Miles.

POPULATION 11,097; White 7,770, Colored 3,327.

DAVIE COUNTY was formed in 1836, from Rowan, and named in honor of Gen. Wm. R. Davie, a resident of Halifax county, who acted a prominent part in the Revolutionary War.

MOCKSVILLE, the county-seat, is 120 miles west of Raleigh, and contains a population of 525. It takes its name from the Mock family, who were prominent citizens of that portion of Rowan before the separation.

Surface—Moderately uneven; well watered by the Yadkin river and its tributaries. Soil rich; a fine farming country.

Staples.—This is one of the finest wheat-growing counties in the State. Corn is grown largely. Grass is profitable. Of late years tobacco is grown with great success. Some cotton is raised, and the amount is increased yearly.

Fruits are those common to the Middle section of the State—apples, pears, peaches, plums, cherries, etc. The melons of the Yadkin Valley are noted for their fine flavor.

Timbers—Oak, hickory, elm, poplar, maple, and some walnut and pine.

DUPLIN COUNTY.

AREA 670 Square Miles.

POPULATION 18,771; White 10,586, Colored 8,185.

DUPLIN COUNTY was formed in 1749, from the upper part of New Hanover county. Its early settlers were Irish, and the name reminded them of Dublin.

KENANSVILLE, the county-seat, was named for the Hon. James Kenan, and is situated 75 miles southeast of Raleigh. Population, 528.

Surface.—Duplin county is situated mostly on the east side of the Wilmington and Weldon Railroad, and on the head-waters of the Northeast Cape Fear river; it is level and much of the land good. The location and surface are such as to make it susceptible of a high state of cultivation.

Staples.—Cotton is the great staple, and is cultivated with intelligence and marked success. Corn and sweet potatoes are profitable crops. Naval stores are still produced in considerable quantities, and some years bring in large amounts of money. The scuppernong grape is perfectly at home here; is grown extensively, and of the finest kind. Of late years trucking is attracting considerable attention.

Fruits—Grapes, melons, apples, peaches, pears, and almost all the smaller fruits common to this latitude.

Timbers—Long-leaf pine, oak, gum, cypress, dogwood, maple, etc.

THE GLOBE WAREHOUSE,

FOR THE SALE OF LEAF TOBACCO,

IS ONE OF THE INSTITUTIONS OF MOUNT AIRY OF WHICH THE PEOPLE MAY WELL BE PROUD.

It is situated on Main street, and is owned by a joint stock company, incorporated under the laws of North Carolina. It is now under the management of Joseph W. Ashby and his partners, as lessees. It was not completed until February 1st, 1887, and the first sale in it was had on that day, since which time it has enjoyed a liberal patronage. The building is a two-story brick, 160 feet by 70 feet. Contiguous to it, and belonging to the Globe Warehouse Company, is a vacant lot, 140 by 60 feet, suitable for a large tobacco factory, for which purpose it will be sold very cheaply. In addition to above, fronting on Main street, are two store-rooms in first story, suitable for good grocery business or general merchandise, which are for rent cheap.

DURHAM, the county-seat, is known as one of the most flourishing and enterprising towns in the State, having risen, since the war, from a mere hamlet of half a dozen houses to its present dimensions of some 8,500 inhabitants, and is the headquarters of the world-renowned "Durham Smoking Tobacco," besides many other important enterprises. It is twenty-six miles north of west from Raleigh.

Norfolk is the second city in population in Virginia, and in the past few years has rapidly increased in business and population. It has a population of 35,000, and within a radius of five miles from its market-house are 75,000 people, while directly tributary to it is a population of 315,000. Norfolk's trade exhibit for 1888, in the various branches, reached sixty million of dollars. She is the third cotton port of the Atlantic Coast.

THE VIRGINIAN AS AN ADVERTISING MEDIUM.

The VIRGINIAN is Norfolk's leading journal, and is unrivalled in Tidewater Virginia and Eastern Carolina as an advertising medium. It ranks third, if not second, in circulation with any daily paper issued in Virginia and North Carolina.

Its increase in circulation since 1882 has kept pace with the growth of the city and progressive journalism in the growing and prosperous South. During the past year its circulation reached **1,068,279 copies,** as follows:

Month.		*No. Printed.*	*Daily Average.*	*Month.*		*No. Printed.*	*Daily Average.*
January,	26 days	81,309	3,381	July,	25 days	86,536	3,461

June,	26 "	89,754	3,452	Dec.,	24 "	95,747	3,829

The VIRGINIAN'S circulation in Norfolk and Portsmouth is greater than that of any paper published or circulated in the two cities. Its country or mail circulation is greater than the combined mail circulation of all the other daily papers of Norfolk and Portsmouth. Estimates for advertising will be promptly attended to.

EDGECOMBE COUNTY.

AREA 500 Square Miles.

POPULATION 26,179; White 7,956, Colored 18,223.

EDGECOMBE COUNTY was formed from Craven in 1733, by the then Governor Burrington and his Council, and was confirmed by the Legislature, which met in Edenton in 1741. The name is Saxon, and according to Bailey's Dictionary, means "A valley surrounded by hills."

TARBORO, the county-seat, is situated on the Tar river, from which it takes its name, and is 76 miles east from Raleigh. Population 2,500—white, 1,300; colored, 1,200. Tar or Taw is the Indian name for "health."

Surface.—This county is situated on both sides of the Tar river; lies well; soil good, much of it rich—plenty of marl convenient for use on almost every farm. Edgecombe is in a higher state of cultivation than almost any other county in the State. Railroad and navigation facilities are fine.

Staples.—Cotton is the great staple of this county. Corn, grapes and sweet potatoes are produced to a considerable extent; also, peas, rice and chufas.

Timbers—Pine and cypress, oak, hickory, gum, &c.

Fruits—Peaches, apples, pears, cherries, plums and the small fruits.

WINSTON CITY SCHOOLS.—SUPERINTENDENT'S OFFICE,
WINSTON, N. C., March 27, 1889.

MESSRS. STEWART BROS.:—*Dear Sirs,*—It affords me pleasure to say that the book you printed for me on the "Names of the Counties of North Carolina and the History Involved in Them," was very neatly and satisfactorily done, and I am glad to recommend your firm. Yours Very Truly, W. A. BLAIR, *Superintendent Schools.*

—:o:—

WINSTON, N. C., March 25, 1889.

MESSRS. STEWART BROS., Winston, N. C.:

Gentlemen,—The Library Catalogue of Winston Graded Schools, printed and bound by you, is a very creditable piece of workmanship, neat and tasty and hard to beat in the State. Very truly,

W. A. WHITAKER, *Chairman of School Board.*

—:o:—

MESSRS. STEWART BROS.:—*Dear Sirs,*—The work you did in printing the Minutes of the Pilot Mountain Association was neat, tasteful and satisfactory.

Respectfully,
H. A. BROWN,

—:o:—

OAK RIDGE INSTITUTE, N. C., December 14, 1888.

MESSRS. M. I. & J. C. STEWART, Winston, N. C.:

Sirs,—Print and send us 300 more Catalogues as soon as you can—by the 18th at outside. Like them splendidly. Yours truly, J. A. & M. H. HOLT.

—:o:—

DURHAM, N. C., March 25, 1889.

MESSRS. M. I. & J. C. STEWART, Winston, N. C.:

Gents,—The Winston City Directory printed by you gives entire satisfaction and is equal to any, and far *superior* to many books printed by New York firms for us. We send by express to-day copy for our Durham, N. C., City Directory—which we know will receive prompt and careful attention. We also wish you to print our Winston and Salem Directory for this year. Respectfully, E. F. TURNER & Co.,
Directory Publishers, 217 *Elm Street, Yonkers, N. Y.*

—:o:—

A NEAT JOB.—Turner's Directory of Winston-Salem for this year is one of the best arranged and printed books of that kind that we have yet seen. The selection of type is in good taste, the printing clean, clear and neat, and everything about it is of the highest artistic order, showing that the STEWART BROTHERS, of this city, at whose office it was printed, are master workmen, who thoroughly understand their business.—*Twin-City Daily, May 15th,* 1889.

—:o:—

A NEAT PIECE OF WORK.—We have been shown the Catalogue of the Siler City Thompson School, a 100-page pamphlet, published by MESSRS. M. I. & J. C. STEWART, Job Printers of Winston. It is an admirable piece of work—indeed, we have seen nothing of the kind printed in this State which surpasses it in neatness of typographical execution.—*Winston Sentinel, June 13th,* 1889.

—:o:—

The following from the Mt. Airy *News* shows that Winston talent is appreciated elsewhere as well as at home. This enterprising firm is doing an immense amount of work, and of a class that cannot be excelled by any printing establishment in North Carolina: "We have seen and examined some job work executed at STEWARTS' JOB OFFICE, Winston, for Messrs. J. K. Reynolds, Fulton & Bro., Geo. B. Yates, J. V. Mitchell, Jos. W. Ashby and others of this town, and we know of no office in the State that can produce better specimens than these. The work is well done."—*Twin-City Daily, July 20th,* 1889.

FORSYTH COUNTY.

AREA 340 Square Miles.

POPULATION 18,070; White 13,442, Colored 4,628.

FORSYTH COUNTY was formed in 1848, from Stokes county, and was named in honor of Col. Benjamin Forsyth, of Germantown, Stokes county.

WINSTON is the county-seat. Population (estimated) 8,500.

Salem, settled by the Moravians over one hundred years ago, and adjoining Winston, contains a population estimated at 3,500.

Surface—Moderately hilly, and watered by many small streams. Much of the soil is good and susceptible of a high state of cultivation.

Staples—Corn, wheat, oats and dried fruit. Tobacco has recently become one of the leading crops, and the large number of tobacco factories and warehouses in Winston has given an impetus to the culture of tobacco in the county almost unprecedented. Forsyth is one of the finest fruit-growing counties in the State.

The Fruits of this county are apples, peaches, pears, apricots, nectarines, cherries, plums and the small fruits. The export of dried blackberries from this county is immense.

Timbers of this county consist of oak, hickory, poplar, walnut, pine, chestnut, and other kinds common to the Piedmont counties of the State.

FRANKLIN COUNTY.

AREA 420 Square Miles.

POPULATION 20,829; White 9,474, Colored 11,355.

FRANKLIN COUNTY was formed in 1779, from what was, prior to that time, Bute county. In that year the General Assembly obliterated the name of Bute and formed from it territory which now constitutes Franklin and Warren counties. Franklin was named in honor of the philosopher and sage, Benjamin Franklin, who rendered his country important services in a civil capacity during the Revolution.

LOUISBURG, the county-seat, is situated on Tar river, 35 miles northeast from Raleigh, and has a population of 965.

It was a common saying of this part of the State during the Revolution, "There are no Tories in Bute."

Surface.—Franklin county is situated on Tar river and tributaries; is moderately undulating, well watered and soil generally good. It is nearly on the dividing line between the cotton and tobacco sections; is a pleasant country and has a thrifty population.

Staples.—Both cotton and tobacco are produced successfully, and may be called the leading staples. Corn, wheat, oats, clover, grasses, and sweet potatoes are profitable crops.

Fruits—Apples, peaches, pears and the small fruits, melons, etc.

Timbers—Oak, hickory, pine, gum, beech, walnut, etc.

GASTON COUNTY was formed in 1846, from Lincoln county, and was named for William Gaston, of Craven county, who was formerly one of the Judges of the Supreme Court.

DALLAS, the county-seat, was named for Vice-President George M. Dallas, of Philadelphia. It is 200 miles southwest of Raleigh, and has a population of 438.

Surface—Moderately uneven; land generally good; water-power very fine. Manufacturing obtains, and especially in cotton and iron.

GREENE COUNTY.

AREA 300 Square Miles.

POPULATION 10,034; White 4,642, Colored 5,392.

GREENE COUNTY was formed in 1799, from what was, prior to that time, Glasgow county. It was named in compliment to Gen Nathaniel Greene, who was one of the bravest, most sagacious and most successful officers of the Revolution, and the saviour of the South from the invasions of the British. He was a native of Rhode Island, where he was born in 1741. Glasgow (now Greene county) and Lenoir originally formed Dobbs county, extinct since 1791.

SNOW HILL, the county-seat, is situated 76 miles east of Raleigh, and has a population of 510.

Surface.—Greene county is situated on Contentnea creek, and is level; lands rich and very productive when well drained. The population is a thrifty one, and the section is a good one for agriculture.

Staples—Corn, cotton, sweet potatoes and naval stores. Cotton is grown systematically and with great success; also wheat, oats and rye are being grown successfully.

Fruits—Apples, peaches, pears, grapes, melons, plums and other small fruits.

Timbers—Pine, oak, hickory, ash and poplar.

GUILFORD COUNTY.

AREA 680 Square Miles.

POPULATION 23,584; White 16,886, Colored 6,698.

GUILFORD COUNTY was formed in 1770, from Rowan and Orange counties. It was called in compliment of Lord North, who, in 1770, succeeded the Duke of Grafton as First Lord of the Treasury and Prime Minister. He was heir to the title of Guilford and eventually succeeded to it as Earl of Guilford.

GREENSBORO, the county-seat, is 82 miles northwest of Raleigh, at the junction of the Richmond & Danville and Cape Fear & Yadkin Valley Railroads, and was named in honor of General Nathaniel Green. Population (estimated) 8,125.

Surface—Pleasantly undulating—hilly but not mountainous; soil good, water-power very fine. Deep river and other smaller streams supply abundant water, and the central location makes it a desirable county for residence. It contains a thrifty population.

Staples—Tobacco, corn, wheat and fruits in abundance and in great perfection. Several nurseries have been in operation for many years and have accomplished much for the interest of fruit-growing. Grass-growing is also profitable.

Fruits—Apples, pears, peaches, grapes, quinces, melons, plums, cherries and other small fruits.

Timbers—Pine, oak, hickory and poplar.

HALIFAX COUNTY.

AREA 680 Square Miles.

POPULATION 30,300; White 9,162, Colored 21,138.

HALIFAX COUNTY was formed in 1758, from Edgecombe county, and in this year the court-house for the counties of Edgecombe, Granville and Northampton was moved from Enfield to the town of Halifax. It derives its name from the Earl of Halifax, who in 1758 was the first Lord of the Board of Trades.

HALIFAX, the county-seat, is 83 miles northeast from Raleigh, on the west bank of the Roanoke river, and also on the Wilmington and Weldon Railroad. Population 500.

Scotland Neck, 21 miles southeast of Halifax, has a population of 1,250, and is the largest town in the county.

Surface.—This county is located on the west side of the Roanoke river; generally level and soil rich. Convenient railroad and river transportation makes it very desirable for farmers. This is doubtless one of the finest counties in the State.

Staples.—Cotton is the great staple. Corn and sweet potatoes are profitable crops, and tobacco is grown successfully in the northern part of the county. Plenty of water-power and timber.

Fruits—Apples, peaches, pears, grapes, cherries, plums, melons and a great variety of small fruits.

Timbers—Pine, oak, hickory, poplar, maple, cypress and juniper.

HERTFORD COUNTY.

AREA 340 Square Miles.

POPULATION 11,843; White 5,121, Colored 6,722.

HERTFORD COUNTY was formed in 1759, from Chowan, Bertie and Northampton counties. It was named in compliment to the Marquis of Hertford, an English nobleman, a friend of liberty, an elder brother of Lord Conway, who, in 1766, moved in the House of Lords the repeal of the Stamp Act. Hertford is a name of Saxon origin and signifies the "Red Ford."

WINTON, the county-seat, was named after the Wynns family; it is situated 155 miles northeast from Raleigh, on the Chowan river, and has a population of 600.

Surface—Level and sandy, soil good; watered by the Meherrin and Chowan rivers.

Staples—Cotton, corn, peanuts and fish. Being near the Norfolk market, trucking might be profitable.

Fruits—Apples, peaches, scuppernong grapes, pears, melons, and the small fruits.

Timbers—Juniper, cypress, pine, oak, ash, the gums and the usual eastern growth.

NEW HANOVER COUNTY.

AREA 80 Square Miles.

POPULATION 29,091; White 12,015, Colored 17,076.

NEW HANOVER COUNTY was formed in 1728, and named in honor of the House of Hanover, then on the English throne.

WILMINGTON, the county-seat, was named in honor of the Earl of Wilmington, the nobleman to whose patronage Governor Johnson (in 1739) was indebted for his office. It was originally called Newton, and is situated at the head of ocean navigation on the Cape Fear river, 148 miles south of Raleigh. Population 24,968.

Surface.—New Hanover is situated between the Cape Fear river and Onslow Bay, and lies in the shape of a cone with the apex extending south to New Inlet. The county of Pender took the greater portion of the former territory of New Hanover. The land is level and much of it swampy—quite rich and very productive when well drained. The advantages of navigation are very fine.

Staples—Cotton, corn, rice, ground peas, vegetables, naval stores and fish.

The climate and soil of New Hanover make it very valuable for trucking, vegetables being at least twenty-five days earlier than at Norfolk and points further north.

This is also the banner county of the State in the production of ground-peas, very profitable crop to the planter.

Fruits—Peaches, grapes, berries and other small fruits.

Timbers—Pine, cypress, gum and live oak.

PAMLICO COUNTY.

AREA 860 Square Miles.

POPULATION 6,324; White 4,208, Colored 2,116.

PAMLICO COUNTY was formed in 1872, from Beaufort and Craven counties, and bears the name of the Sound on its eastern and southern border.

BAYBORO, the county-seat, is 140 miles from Raleigh, located on the Bay river, and takes its name from that stream Population 425.

Surface.—This county is low and level. It is traversed by Bay river. On both sides of the river there is much swamp land that produces heavy crops when well drained. The advantages of water transportation are fine. It is sufficient to say that this county makes the well-known "Bay River" section.

Staples—Cotton, rice, sweet and Irish potatoes and corn are the great staples. Fish is an item of very considerable profit. Newbern, one of the finest fish markets in the State, is soon reached, by land or by water, from any part of this county.

Fruits—Apples, grapes, melons, and the small fruits.

Timbers—Pine, poplar, ash, gum, oak, holly and buck. Large quantities of pine timber are produced and shipped to the Northern markets.

PASQUOTANK COUNTY.

AREA 240 Square Miles.

POPULATION 10,386; White 4,857, Colored 5,529.

PASQUOTANK COUNTY was formed in 1729, from one of the original precincts of Albemarle. It derives its name from the tribe of Indians who once owned the soil.

ELIZABETH CITY, the county-seat, is 215 miles northeast from Raleigh, and is located on the Pasquotank river and on the N. S. R. R. Population (estimated), 4,800.

Surface—Low, level, portions of it swampy, but a part in a high state of cultivation. Very rich and very productive. The county lies on the west bank of the Pasquotank river, and has very fine advantages for navigation. A daily line of steamers runs from the county-seat to Norfolk, and steam transportation lines from Norfolk to all points on the Pamlico and Albemarle sounds, and on the Chowan, Roanoke and Neuse rivers and other streams tributary to these sounds, touch at Elizabeth City. Besides the canal commerce, there is considerable coasting trade, while the railroad does an immense business. A hospitable population.

Staples—Cotton, corn, sweet potatoes, wheat, oats, rice and general trucking, shingles, lumber and fish.

Fruits—Apples, pears, peaches, grapes and the small fruits.

Timbers—Pine, oak, cypress, poplar, juniper, ash and gum.

ROWAN COUNTY.

AREA 450 Square Miles.

POPULATION 19,917; White 13,611, Colored 6,306.

ROWAN COUNTY was formed in 1753, from Anson county. Until Surry (in 1770) and Burke (in 1777) were taken off, this county comprised most of the western part of the State of North Carolina and Tennessee.

SALISBURY, the county-seat, derives its name from a town in England. It is a word of Saxon origin, meaning a dry town. It is situated on the Piedmont Air-Line and Western North Carolina railroad, 118 miles from Raleigh. Population 5,151

Surface.—Rowan lies on the south side of the Yadkin river; moderately uneven; water-power plenty, soil very fine.

Staples—Corn, wheat, tobacco, oats, potatoes and live-stock. Rowan is a fine wheat county, and many of the farms are under a good state of cultivation. This is the largest hay-producer in the State.

Fruits—Apples, peaches, pears, cherries, berries and other small fruits.

Timbers—Oak, hickory, ash, walnut, maple, poplar and pine.

Minerals—Gold, silver, copper, with sulphur springs.

Life Insurance Company

Is peculiarly strong by reason of the character of its business and its financial condition, with over forty-three years' experience.

It selects its risks with great care, and in the healthy sections of *our own country* only.

Each policy now issued provides that, in case of lapse after two or three years' premiums are paid, it is fully paid up for an amount stated upon the policy, *without any action on the part of the insured;* also gives large cash values after ten years, which are printed in figures on the policy.

SWAIN COUNTY was formed in 1871, from Macon and Jackson counties, and was named in honor of D. L. Swain, formerly Governor of North Carolina and President of the University.

The atmosphere is salubrious and the climate mild.

The Western North Carolina Railroad runs a distance of forty miles very nearly through the centre of the county.

Water-power is abundant, and scenery fine. This county has some 250,000 acres of the finest grazing land in the world.

BRYSON CITY, the county-seat, romantically situated on both sides of the Tuckaseege river, about thirteen miles above its junction with the Tennessee, is 325 miles from Raleigh. Population 450.

It was formerly called "Charleston"; was changed to Bryson City by an act of Legislature, session 1889, in honor of Col. T. D. Bryson, a citizen of Swain county, and for a long time a member of the Legislature.

Surface—Mountainous, and watered by the Tennessee, Tuckaseege, Nantahala and Ocona Lufty rivers.

Staples—Corn, wheat, oats, rye, buckwheat, tobacco, potatoes, and a variety of vegetables.

Fruits—Apples, peaches, grapes, pears.

Timbers—Walnut, cherry, oak, poplar, pine, birch, beech, ash.

Minerals—Gold, silver, lead, copper, marble, talc, kaoline, iron.

ÆTNA

Life Insurance Comp'y,

OF HARTFORD, CONN.

Raleigh, N. C., October 1, 1889.

THE ÆTNA LIFE Asks your patronage, good people of North Carolina, because you cannot, in all our borders, find a stronger, better managed, or more prompt Life Insurance Company to deal with. To substantiate this, we appeal to our *record*, which dates back a quarter of a century.

MINISTERS Many among the ablest in your calling are insured with us. *Are you?* If not, *do not delay.*

LAWYERS The Bench and Bar are largely insured with us—University men and Professors of Law. *Are you?* If not, we shall expect your application *very soon.*

DOCTORS You know the value of a human life, and among our insured are many who rank high in your profession. Aid us by a word to those who are careless about insurance, and send in your own application.

MERCHANTS The largest merchant in the world is insured with us *for all we will take.* You insure your goods; be as liberal with your life.

FARMERS Men who toil hard for little money, your safest investment is a GOOD Life Insurance Policy in the ÆTNA LIFE INSURANCE COMPANY.

YOUNG MEN While insurance is cheap, and you can put by something *for the future*, take an Endowment Policy or Limited Payment Life Policy in the ÆTNA. You will never regret such an investment.

☞ Our Non-participating Policy is cheaper than Coöperative Insurance, because ☞ we give a "paid-up" value after three annual payments, and Coöperatives ☞ give *nothing*, should you cease paying. Our **Twenty-Payment** ☞ **Terminal Endowment** is a beautiful combination of PROTECTION and ENDOWMENT, and costs less than eight ☞ dollars per thousand more than an ordinary Participating Life Contract.

*** Write for Circulars. Active Agents wanted, and correspondence solicited.

WILLIAM L. HILL,

General Agent for North Carolina.

Would beg leave to submit the following references as to his Artistic Ability. He also solicits orders, and guarantees satisfaction:

FINE PORTRAIT.

Our office is ornamented with a fine oil portrait of the late John E. Grist, father of the proprietor of the ENQUIRER. Mr. Grist was among the first printers that ever came to Yorkville to enter into the business, having been induced to come here by Messrs. Beatty & Williams to print for them the Yorkville *Patriot*. This was in the year 1833, and he remained here continuously, either as publisher or employé in the printing business, until incapacitated by the infirmities of age, a few years before his death, which occurred in 1870. So closely identified with the printing business in Yorkville as was he, it was deemed meet and proper that his likeness should be preserved in the ENQUIRER office, and Mr. David L. Clark, an artist of celebrity at High Point, North Carolina, was commissioned to perpetuate his features on canvas. Though the painting was made from an old daguerreotype, most truthfully did the artist perform his task, and the result is a picture highly satisfactory to us, and one pronounced by connoisseurs an admirable work of art, while those who remember the features depicted pronounce it a correct and truthful likeness.

Mr. Clark is a painter of rare ability. A pupil of the famous Sully, his natural talent was fully developed by that great master in the art of portrait-painting, while his skillful brush has produced many ideal paintings of pronounced merit. His work is his best recommendation as an artist, and those who may desire portrait-painting executed in the highest style of the art are invited to give the one referred to an inspection.

[*From the High Point Enterprise.*]

EXCELLENT WORK.

Mr. D. L. Clark has completed the fine oil painting of Henry Clay, for the Guilford College. It is a masterpiece of art, and adds to the artist's already well-established reputation. Being a born artist, and his faculties having been developed under the training of the famous Sully, we are not surprised at Mr. Clark reaching the high standard of excellence in his profession. It was while gazing at his (Clark's) easel that Barbee, the celebrated sculptor who gave Baltimore "The Fisher Girl," received his first inspiration. Why send away from home for oil painting when we have the best talent here?

GREENSBORO, N. C., May 16, 1883.

D. F. CALDWELL, ESQ.,

Greensboro, N. C.:—

DEAR SIR: I did not have the pleasure of examining the oil portrait of General Nathanael Greene, presented by you to the Guilford Battle-Ground Company, until yesterday. I desire to thank you in behalf of the Company for this valuable donation, and express to you my admiration for the picture as a work of art. The likeness is fine, and the execution is, in my opinion, most excellent.

The portrait shall have the most conspicuous place I can give it in the Lodge.

Very respectfully,

D. SCHENCK,

President Guilford Battle-Ground Co.

The above is very complimentary to our townsman, Mr. D. L. Clark, who painted the portrait referred to.—*Enterprise.*
